Introduction

About This Manual

Purpose

The OpenEMR for Front Office is getting more and more powerful and flexible. Therefore we tried to address all the possibilities of the software. However its usage may differ for the individual healthcare providers according to their organization, prior knowledge of the staff member and similar circumstance. This user manual will replace an intensive training onsite, but shall be considered as an additional support.

Intended Audience

This manual is primarily intended for Front Office staff of Healthcare organization whose uses OpenEMR.

Prerequisites for Use

The following are the prerequisites:

Functional – Basic understanding of Healthcare terms and operations carried out in hospitals.

Technical - Basic understanding of computers and data entry operations.

Introduction to OpenEMR

OpenEMR is a Free and Open Source electronic health records and medical practice management application. It is ONC Certified and it features fully integrated electronic health records, practice management, scheduling, electronic billing, internationalization, free support, a vibrant community, and a whole lot. It can run on Windows, Linux, Mac OS X, and many other platforms.

Features

- ✓ Advanced scheduling allows clinics to create repeating events, automated workflows triggered by check-in and patient reminders.
- ✓ E-prescription was entered into an encounter and have it electronically sent to the patient's pharmacy.
- ✓ Export billing data in standardized X12 format.
- ✓ Generate CMS Meaningful Use reports with just a few clicks.
- ✓ Have lab orders automatically sent to a lab and integrate the result into a patient's chart automatically.
- ✓ Navigate complex patient algorithms using the clinical decision rules engine to ensure the highest quality of care for patient.

- ✓ HIPAA-friendly, fine-grained access control objects, and industry-standard password hashing helps to protect your practice from intrusion.
- ✓ Available in over 30 languages and customizable to add more.

Getting Started

Install OpenEMR 5.0.0 in your healthcare practice and you are set to explore the new world of digital healthcare. In web browser, enter the URL for the OpenEMR access and your OpenEMR credentials to login as provided by your administrator.

The OpenEMR logo features a blue circular icon with two curved arrows forming a circle, followed by the text "openEMR" in a sans-serif font. "open" is in black, "EMR" is in blue, and there is a red horizontal line under the "open" part.

Figure 1: Login Screen

Logging in OpenEMR as receptionist, takes you to the main landing page. This screen shows the schedules and appointments of all the practitioners at the clinic.

Figure 2: Dashboard

Scheduling

Setting up Provider Schedules

Is it the first time you started scheduling in OpenEMR? If YES, you will need to set up schedules for all the practitioners.

To do this, select a provider from the 'Providers' list on the left for whom you would like to set up a schedule. Next, click the time at which that provider is scheduled to enter office.

Figure 3: Selecting provider name and time

Clicking on the time in the Calendar page will display an 'Add New Event' dialog box. Refer the screen below.

The screenshot shows a calendar application interface. On the left, there is a calendar view for February 8, 2018, with a list of providers (Lee, Donna; Stone, Billy; Stone, Fred) and their availability times. The main area displays the 'Add New Event' dialog box. The dialog has tabs for 'Patient' and 'Provider'. The 'Provider' tab is active. The 'Category' is set to 'In Office'. The 'Date' is '2018-02-08'. The 'Time' is '11:00 AM'. The 'Title' is 'In Office'. The 'Facility' is 'Great Clinic'. The 'Billing Facility' is 'Great Clinic'. The 'Provider' is 'Lee, Donna'. The 'Repeats' checkbox is checked, and the frequency is set to 'every day'. The 'Duration' is '360 minutes'. The 'Until' field is set to '2nd Thursday'. The 'Comments' field is empty. At the bottom are buttons for 'Save', 'Find Available', 'Delete', 'Cancel', and 'Create Duplicate'.

Figure 4: Setting provider appointment.

The Facility (Clinic) and provider name will be automatically filled, as well as the time that you selected.

Click the 'Provider' tab and choose "In Office" from the 'Category' drop-down list. Enter the duration for the category selected, for example 360 minutes which intimates provider will be available for 6 hours from 11:00 AM.

If the Provider visits the clinic on every business day, you can choose to make this a repeating event, which allows you to set up an event only once for a given period of time. Do this by selecting the 'Repeats' checkbox, and setting the appropriate frequency & duration. Make sure to select an end date later than the select date for repeated events to occur in the 'Until' field. Once you have finished click

'Save' to update the calendar.

Note: Repeat the same process to set up different schedules for a provider such as: Lunch, Out of Office, Vacation and Reserved.

Figure 5: Provider Appointment screen

In the above screen, the provider was set in office between 11:00Am to 6:00 PM in which 1:00PM-2:00PM was assigned as lunch.

Scheduling Appointment - New patient

Once the clinic and all its practitioners are set up, you can begin scheduling appointments for your patients.

When a new patient calls you for the appointment, select the provider from providers list in the left and click on the time specified by the patient on call. Refer *Figure 3*.

In “Add New Event” dialog box, select the “Category” as “New Patient” and click on the “Patient” field. Search for the patient name and if search returns null, you will get a link “Click here to add new patient”. Click on the link and you will be taken to “Search or Add Patient” screen.

Note: Searching for a patient by name means their surname and not their first name.

Figure 6: Setting Appointment for a new patient

Click “Click here to add a new patient” for adding new patient.

Figure 7: Adding new patient

Patient Name, Date of Birth and Sex are mandatory fields to create a new patient. If you have an existing chart for this patient, you may enter the chart number under 'External ID', If not the system will take care of this. Enter all the required information and click on ‘Create New Patient’. This will display a pop up box that shows if there is an existing patient or not after you create a new patient. Clicking on ‘Confirm Create New Patient’ will takes you to the Patient Summary page. Refer *Figure 8*.

Figure 10: Finding Available time

Make sure to enter the correct duration for the appointment and click 'Save'.

Return to the calendar using the navigation menu on the left. Advancing to the appropriate date, using the arrows at the top of the screen shows the new appointment listed in the provider's schedule.

Verify patient's DOB by mouse over the patients name in created appointment.

Figure 11: Calendar of Provider with Patient Details.

Note: Adding a new patient can also be done by clicking on either of the two links available in the main landing page. Go to **Patient/Client -> New/Search** in the top navigation menu for adding new patient.

Figure 12: Adding new patient.

Scheduling Appointments – Existing Patient

To create an appointment for an existing patient, go to the Calendar link in the navigation menu. The calendar shows a list of appointments scheduled for the practitioners available in the clinic. Now, fix an appointment for a patient by clicking on the time slot next to the corresponding Practitioner.

Figure 13: Adding appointment for existing user

This will present you with the same Add New Event dialog used earlier. You can change the category to “EstablishedPatient”. Select the patient from ‘Patient’ field and enter all the required details and click on ‘Save’.

Appointment Status

If the patient has arrived at your clinic or cancelled the appointment, you can change the patient appointment status to the appropriate one by selecting from the drop down list as shown below.

The screenshot shows an appointment form with the following details:

- Patient:** March, Logan
- Provider:** Lee, Donna
- Category:** Office Visit
- Date:** 2018-02-08
- Time:** 11:30 AM
- Title:** Office Visit
- Facility:** Great Clinic
- Billing Facility:** Great Clinic
- Repeats:** every day
- Status:** A dropdown menu is open, showing options:
 - None
 - Reminder done
 - Chart pulled
 - Cancelled
 - No show
 - Arrived
 - Arrived late
 - Left w/o visit
 - Ins/fin issue
 - In exam room
 - Checked out
 - Cooling done
 - Cancelled < 24h
 - Pending
- Room Number:** (empty)
- Comments:** (empty)
- Buttons:** Save, Edit, Cancel, Create Duplicate

Figure14: Changing Appointment Status.

Figure 15: Appointment Status.

You can also type a note into the 'Comments' line if more information is needed. Click 'Save' to update the status of the appointment. You can see that the symbol next to the appointment time has changed to indicate its new status. Any comments are now also visible when you mouse over the patient's name on the appointment calendar.

Patient Profile

Patient Demographics

To enter detailed demographic information of a patient, Select the patient and click on 'Edit' next to the Demographics section. This will bring up a series of tabs containing inputs for the various types of patient data.

The screenshot shows a medical software interface. At the top, there's a navigation bar with tabs: Calendar, Flow Board, Messages, Patient/Client, Reports, Popups, and About. Below this, a patient selection bar shows a search icon, a patient card for 'Patient: Logan March (4)' with DOB '1995-09-13' and Age '22', and buttons for 'Open Encounter: 2018-02-08 (15)' and 'View Past Encounters (1)'. Below the patient selection bar, there's a tabbed interface with 'Edit Current Patient' selected. The 'Edit Current Patient' tab has a 'Save' button and a 'Cancel' button. Below the tabs, the 'Demographics' section is active, showing a form with fields for Name (Mr., Logan, Jasor), External ID (4), DOB (1995-09-13), Sex (Male), S.S., License/ID, Marital Status (Single), User Defined, and Billing Note.

Figure 16: Patient Demographics

Click on the tab for the section you would like to work with and fill in the desired information in the fields.

Who – The fields under this tab allows medical receptionist to collect patient related information like: Name, DOB, Sex, and Marital Status etc.

Contact – The fields under this tab allows medical receptionist to collect patient contact information's like:

Address, Phone Numbers, Email ID, and Mother/Guardian name.

Choices – The fields under this tab allows medical receptionist to enter the provider details, message details and portal details for that particular patient.

Employer – The fields under this tab allows medical receptionist to collect employer details of that patient.

Stats– The fields under this tab allow medical receptionist to collect patient statistics like: Language, Race, Income, Family size etc.

Misc –Allows medical receptionist to collect other information related to the patient.

Patient Insurance

To enter Insurance information for a patient click on 'Edit' next to the Insurance section. This will bring up a series of tabs containing inputs for the various types of insurances.

Figure 18: Demographics and insurance details of the patient

Uploading Patient Related Documents

You can upload files like Patient's ID, Insurance Card, Lab Reports etc. that has been scanned or saved by clicking on 'Documents' link available at the top of the Patient Summary screen. This shows a screen with the list of available document categories like: CCD, CCR, Lab Reports, Medical Report, Transaction, issues, Ledger etc.

March, Logan Patient has not authorized the Patient Portal.
[History](#) | [Report](#) | [Documents](#) | [Transactions](#) | [Issues](#) | [Ledger](#) | [External Data](#)

Figure 19: Patient Summary

Click on the appropriate Document Category to upload the file. This will present a screen with a standard dialog for locating the file on your computer. Once the desired file has been selected, click 'Upload' to save the file in OpenEMR. Refer the screenshot below.

Figure 20: Uploading Documents

To see the file uploaded, click on the plus sign next to the appropriate document category which displays a list of all the files in that category. Click on the name of the file to view it. Refer screenshot below. To add notes to the uploaded file, you can go the notes section in the screen below.

Figure 21: Viewing Uploaded Document.

Here you can also associate it with a particular issue, or move it to a different category or patient.

Flow Board

Patient Flow Board allows you to see where patients are and how long they have been

waiting. Patient Flow Board and Calendar work together and changes made in one program can be seen in the other.

Figure 22 shows the Patient Flow Board interface. At the top, there's a navigation bar with 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Procedures', 'Reports', 'Popups', and 'About'. Below this, a patient selection bar shows 'Patient: Logan March (7)' and 'DOB: 1995-09-13 Age: 22'. The main area is titled 'Flow Board' and contains a table of patient appointments. The table has columns: PID, Patient, Encounter, Exam Room #, Appt Time, Arrive Time, Status, Current Status Time, Visit Type, Provider, Total Time, Check Out Time, and Updated By. The table shows 5 patients in exam room 1, 2 checked out, and 2 left without visits. The status of each patient is color-coded: blue for 'In exam room', yellow for 'Checked out', and green for 'Left w/o visit'.

PID	Patient	Encounter	Exam Room #	Appt Time	Arrive Time	Status	Current Status Time	Visit Type	Provider	Total Time	Check Out Time	Updated By
2	Underwood, Susan Ardmore	18	Room 1	09:30	10:28	< In exam room	97 minutes	Visite du bureau	Smith, Billy	113 minutes		admin
2	Underwood, Susan Ardmore	15	Room 1	15:00	09:04	> Checked out		Office Visit	Lee, Donna	77 minutes	10:21	physician
7	March, Logan Jason			16:00		> Checked out		Office Visit	Lee, Donna		10:21	physician
5	At, John			16:30		Left w/o visit		Office Visit	Lee, Donna		12:13	physician
2	Underwood, Susan Ardmore			17:00		Left w/o visit		Office Visit	Lee, Donna		10:42	receptionist

Figure 22: Patient Flow Board

Patient Flow Board shows the patient status with colors based on the appointment status code. The 'Current Status Time' is reset and restarted with each status change, but the total time keeps running.

(Timings are based upon arrival time not appointment time). These timings and status changes are stored so they can be retrieved on the Patient Flow Board report.

You can change the status of patient in the Patient Flow Board by just clicking on the 'Status' for a particular patient. A new window as shown in the screen below will be displayed. Change the 'Status Type' for the patient and also enter the Room number (if required) and click on 'Save'. The changes made will be updated.

Figure 23 shows the Patient Flow Board interface with a 'Change Status for Logan March' dialog box open. The dialog box has a 'Status Type' dropdown menu set to '? No show', an 'Exam Room Number' dropdown menu set to 'Room 2', and 'Save' and 'Cancel' buttons. The background shows the same patient flow board table as in Figure 22.

Figure 23: Patient Status Change.

Messages and Reminder

Message and reminder center allows to send message to the particular recipient or to the group of people. Reminders are used to set reminder for patients, providers on particular date.

Creating new Message

Click “Add new” in the message tab to send a new message. Add new message dialog box appears, in that select type, patient name, Status, Receiver names from list box and include the message, after including all the details, click “send message”. Type includes options such as Unassigned, Chart Note, Insurance, New Document, pharmacy, Prior Auth, Referral, Test Scheduling, Bill/Collect, other, Lab Result, New Orders, Patient Reminder, Image Result. Status includes options such as New, Done, Forwarded, Read.

Payment

DOS	Encounter	Total Charge	Insurance Payment	Patient Payment	Co Pay Required	Insurance Balance	Patient Balance	Paying
2018-02-08	18	0.00	0.00	0.00	0.00	0.00	0.00	
2018-02-08	15	50.00	0.00	50.00	50.00	50.00	50.00	
2014-02-01	8	200.00	-25.00	0.00	200.00	200.00	200.00	
Total								250.00

Figure 33: Patient Payment

In this payment screen enter the following details:

1. Payment Method – Select 'Cash' from the dropdown
2. Payment Against – Select the 'Co Pay' radio button
3. Select the encounter for the patient for whom Co Pay has to be done and enter the Co Pay amount
4. Once the required information has been entered, click on 'Generate Invoice'
5. Payment receipt will be generated which can also be printed

The screenshot shows the 'Receipt for Payment' form. At the top, there's a navigation bar with 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Procedures', 'Reports', 'Popups', and 'About'. The user 'Barbara Wallace' is logged in. Below the navigation bar, there's a patient selection area showing 'Patient: Susan Underwood (2)' with 'DOB: 1967-02-08 Age: 51'. To the right, there's a button to 'Open Encounter: 2018-02-08 (15)' and a link to 'View Past Encounters (3)'. The main title of the form is 'Receipt for Payment'. Below this, the clinic information is listed: 'Tracey's Clinic', 'Fitton Hill', 'Oldham, Manchester 333222', and '000-000-0000'. The form contains the following fields: 'Date: 2018-02-08', 'Patient: Susan Ardmore Underwood (2)', 'Paid Via: Cash', 'Check/Ref Number:', 'Amount for This Visit: 50.00', 'Amount for Past Balance: 200.00', and 'Received By: receptionist'. At the bottom left, there are two buttons: 'Print' and 'Open Today's Visit'.

Figure 34: Receipt for Payment.

Select Print to print the receipt.

Batch Payment

Payment can also be done by Selecting **Payment-> batch payment**. Batch payment is used bundle multiple bills into one payment transaction. You can then export the file and upload it into your online banking or other payment service. Your bank processes the file and pays the bills in the batch.

New Payment

To make a new payment, Select **new payment** tab under batch payment.

The screenshot shows the 'Batch Payment Entry' form. At the top, there's a navigation bar with 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Procedures', 'Reports', 'Popups', and 'About'. The user 'Barbara Wallace' is logged in. Below the navigation bar, there's a patient selection area showing 'Patient: Susan Underwood (2)' with 'DOB: 1967-02-08 Age: 51'. To the right, there's a button to 'Open Encounter: 2018-02-08 (15)' and a link to 'View Past Encounters (3)'. The main title of the form is 'Batch Payment Entry'. Below this, there's a 'Payments' section with three tabs: 'New Payment', 'Search Payment', and 'ERA Posting'. The 'New Payment' tab is selected. The form contains the following fields: 'Date: 2018-02-08', 'Post To Date: 2018-02-08', 'Payment Method: Cash', 'Check Number:', 'Payment Amount: 50.00', 'Paying Entity: Patient', 'Payment Category: Patient Payment', 'Payment From: Underwood Susan Ardmore', 'Deposit Date: 2018-02-08', 'Description: Underwood Susan Ardmore', and 'UNDISTRIBUTED: 50.00'. At the bottom, there are three buttons: 'Save Changes', 'Cancel Changes', and 'Allocate'.

Figure 35: Batch Payment Entry

Search Payment

It is used to search payment details by using either of the following such as deposit Date, payment amount, payment type, date, payment category etc.

ID	Date	Paying Entity	Payer	Ins Code	Payment Method	Check Number	Pay Status	Payment	Undistributed
8	2018-02-08	Patient	Underwood Susan Ardmore		Cash		Fully Paid	50.00	0.00

Figure 36: Search payment

ERA posting

An electronic remittance advice (**ERA**) is an electronic data interchange (EDI) version of a medical insurance **payment** explanation. It provides details about provider's claim payment and if the claims are denied, it would then contain the required explanations. It includes details such as Date, Post to date, Deposit Date, insurance etc.

Figure 37: ERA posting

Procedure

Provider

OpenEMR can work with collections of diagnostic tests using a functionality called "Procedures". Procedures are not just for ordering lab tests and recording their results; they apply to any procedure that performs some act and records results for that act. OpenEMR's procedure orders meet the Meaningful Use requirement to store test results in the EMR as structured data.

In order to create procedures,

1. Select **Procedures-> Providers**

2. Click **Add New** button

Figure 38: Adding new Procedure.

A screenshot of a 'New Procedure Dialog Box' overlaid on the software interface. The dialog box contains the following fields: Name (a dropdown menu), NPI (a text input field), Sender IDs (Application and Facility text input fields), Receiver IDs (Application and Facility text input fields), Usage (a dropdown menu set to 'Debugging'), Protocol (a dropdown menu set to 'Download' and a 'Bidirectional' checkbox), Remote Host (a text input field), Login (a text input field), Password (a text input field), Orders Path (a text input field), Results Path (a text input field), and Notes (a large text area). At the bottom of the dialog box, there are 'Save' and 'Cancel' buttons.

Figure 39: New Procedure Dialog Box

After entering the details, click save to add a new procedure.

Configuration

In order to configure the procedures, select **Procedure -> Configuration**. Orders and Result type Tab gets opened.

Figure 40: Configuration Tab

Click “Add Top Level” and select procedure type, enter name, Description, sequence and click Ok.

Figure 41: Adding new Top Level.

To add a next Level inside top level select Add link in right corner and enter details of next level and click ok.

Figure 42: Types of Orders and Results

Lab Documents

To generate list of lab documents, go to **Procedure -> Lab Documents**. Select from Date and To date to generate the lab documents between those dates.
