Introduction

About This Manual

User manuals are important forms of impersonal support for using software applications including electronic medical records (EMRs). Along with the OpenEMR tip sheet and videos made available on the TOP website, the embedded OpenEMR User Manuals from Visolve can be a great untapped resource with detailed instructions on how to optimize EMR functionality.

Intended Audience

This manual is primarily intended for Physicians of Healthcare organization whose uses OpenEMR.

Prerequisites for Use

The following are the prerequisites:

Functional – Understanding of Healthcare terms and operations carried out in hospitals.

Technical - Basic understanding of computers and data entry operations.

Introduction to OpenEMR

OpenEMR is a Free and Open Source electronic health records and medical practice management application. It is ONC Certified and it features fully integrated electronic health records, practice management, scheduling, electronic billing, internationalization, free support, a vibrant community, and a whole lot. It can run on Windows, Linux, Mac OS X, and many other platforms.

Features

- ✓ Advanced scheduling allows clinics to create repeating events, automated workflows triggered by check-in and patient reminders.
- ✓ E-prescription was entered into an encounter and have it electronically sent to the patient's pharmacy.
- ✓ Export billing data in standardized X12 format.
- ✓ Generate CMS Meaningful Use reports with just a few clicks.
- ✓ Have lab orders automatically sent to a lab and integrate the result into a patient's chart automatically.
- ✓ Navigate complex patient algorithms using the clinical decision rules engine to ensure the highest quality of care for patient.
- ✓ HIPAA-friendly, fine-grained access control objects, and industry-standard password hashing helps to protect your practice from intrusion.
- ✓ Available in over 30 languages and customizable to add more.

Getting Started

Install OpenEMR 5.0.0 in your healthcare practice and you are set to explore the new world of digital healthcare. In web browser, enter the URL for the OpenEMR access and your OpenEMR credentials to login as provided by your administrator.

Figure1: Login Screen

Logging in OpenEMR as an administrative assistant, takes you to the main landing page. This screen shows the schedules and appointments of all the practitioners at the clinic.

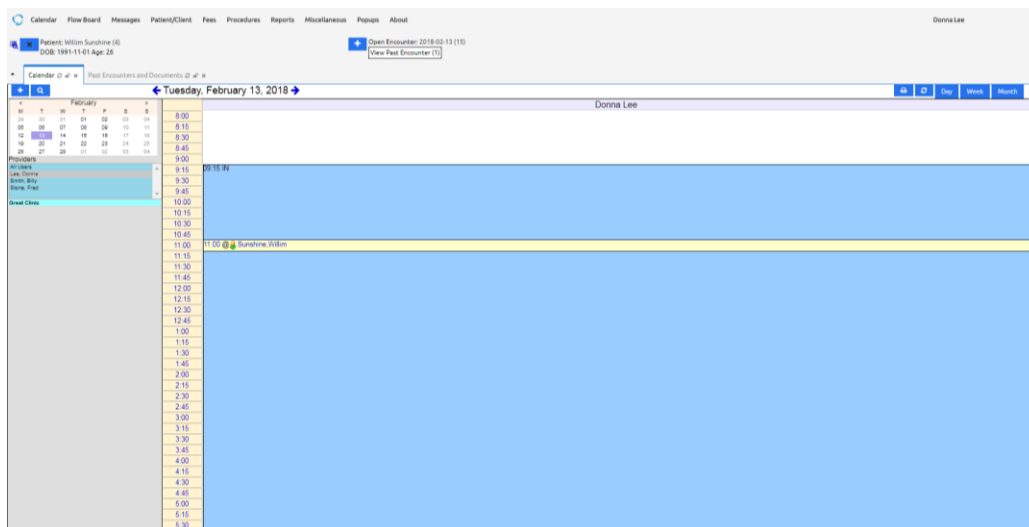

Figure2: Dashboard

Scheduling

Setting up Provider Schedules

Is it the first time you started scheduling in OpenEMR? If YES, you will need to set up schedules.

To do this, select a provider from the 'Providers' list on the left for whom you would like to set up a schedule. Next, click the time at which that provider is scheduled to enter office.

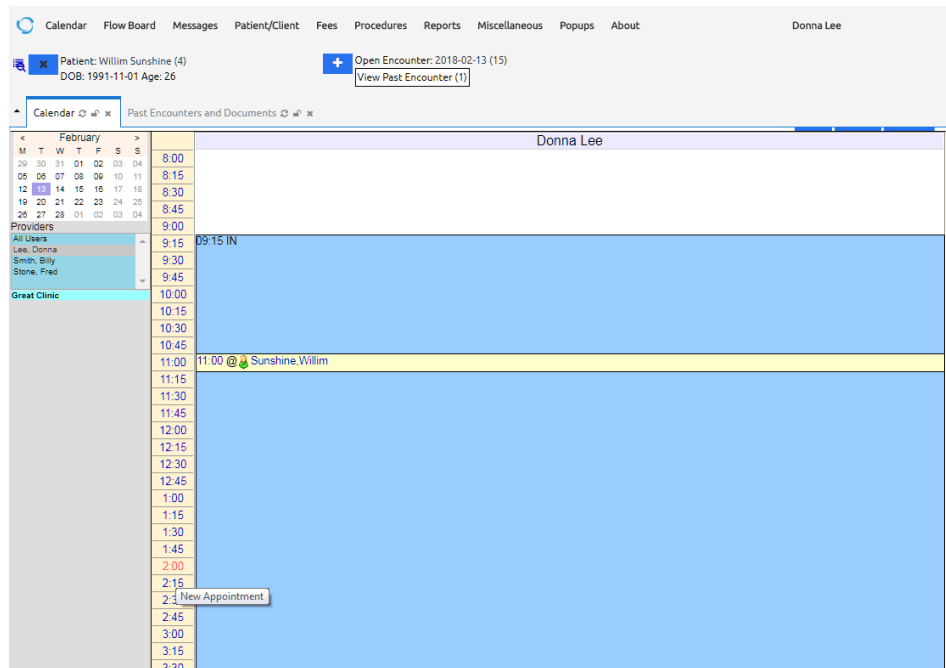

Figure 3: Selecting provider name and time

Clicking on the time in the Calendar page will display an 'Add New Event' dialog box. Refer the screen below.

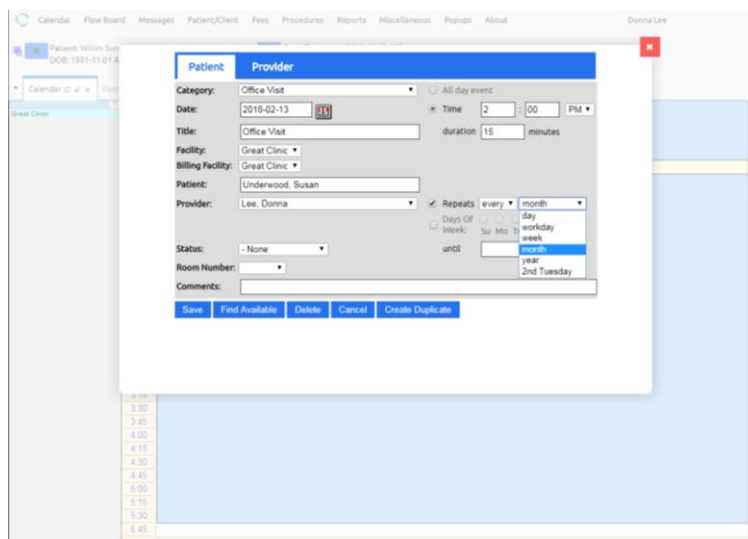

Figure 4: Selecting credentials for creating patient.

The Facility (Clinic) and provider name will be automatically filled, as well as the time that you selected.

Click the 'Provider' tab and choose “In Office” from the 'Category' drop-down list. Enter the duration for the category selected, for example 360 minutes which intimates provider will be available for 6 hours from 11:00 AM.

If the Provider visits the clinic on every business day, you can choose to make this a repeating event, which allows you to set up an event only once for a given period of time. Do this by selecting the 'Repeats' checkbox, and setting the appropriate frequency & duration. Make sure to select an end date later than the select date for repeated events to occur in the 'Until' field. Once you have finished click 'Save' to update the calendar.

Note: Repeat the same process to set up different schedules for a provider such as: Lunch, Out of Office, Vacation and Reserved.

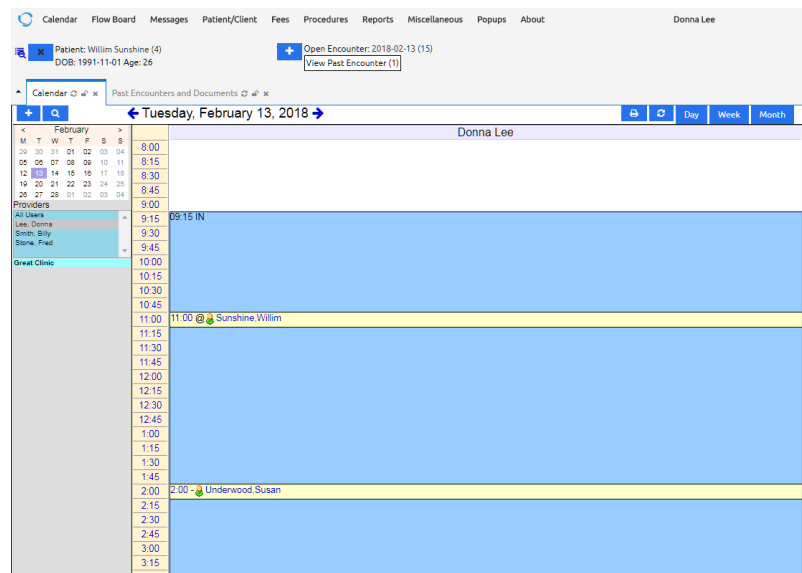

Figure 5: Provider Appointment Screen

When a new patient calls you for the appointment, select the provider from providers list in the left and click on the time specified by the patient on call. Refer *Figure 3*.

In “Add New Event” dialog box, select the “Category” as “New Patient” and click on the “Patient” field. Search for the patient name and if search returns null, you will get a link “Click here to add new patient”. Click on the link and you will be taken to “Search or Add Patient” screen.

Note: Searching for a patient by name means their surname and not their first name.

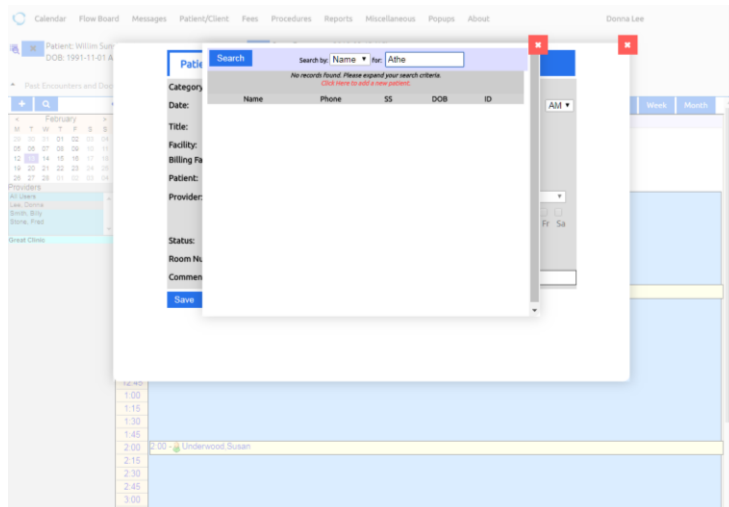

Figure 6: Setting Appointment for new Patient.

Click “Click here to add a new patient” for adding new patient.

Figure 7: Adding new Patient.

Patient Name, Date of Birth and Sex are mandatory fields to create a new patient. If you have an existing chart for this patient, you may enter the chart number under 'External ID', If not the system will take care of this. Enter all the required information and click on 'Create New Patient'. This will display a pop up box that shows if there is an existing patient or not after you create a new patient. Clicking on 'Confirm Create New Patient' will takes you to the Patient Summary page.

Figure 10: Finding Available time

Make sure to enter the correct duration for the appointment and click 'Save'.

Return to the calendar using the navigation menu on the left. Advancing to the appropriate date, using the arrows at the top of the screen shows the new appointment listed in the provider's schedule. Verify patient's DOB by mouse over the patients name in created appointment.

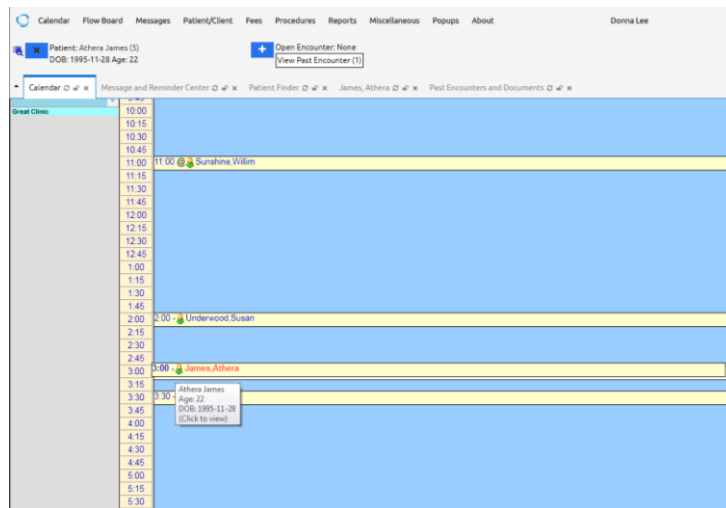

Figure11: Calendar of Provider with Patient Details.

Note: Adding a new patient can also be done by clicking on either of the two links available in the main landing page. Go to **Patient/Client -> New/Search** in the top navigation menu for adding new patient.

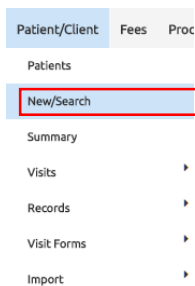

Figure 12: Adding new patient.

Scheduling Appointments – Existing Patient

To create an appointment for an existing patient, go to the Calendar link in the navigation menu. The calendar shows a list of appointments scheduled available in the clinic. Now, fix an appointment for a patient by clicking on the time slot.

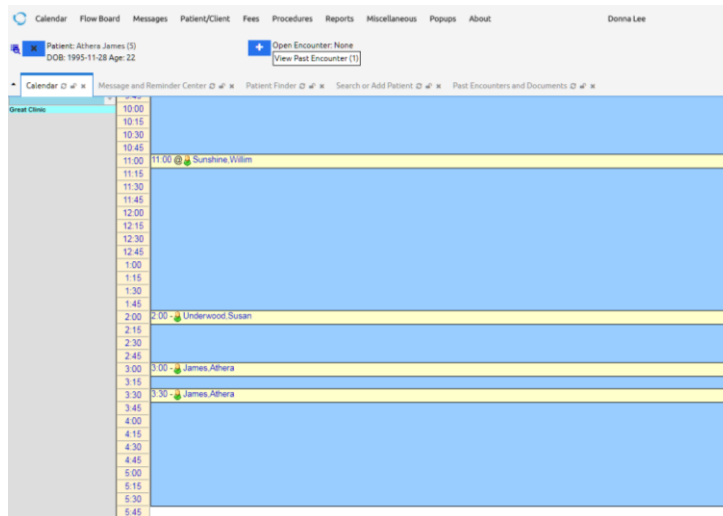

Figure 13: Adding appointment for existing user

This will present you with the same Add New Event dialog used earlier. You can change the category to “EstablishedPatient”. Select the patient from ‘Patient’ field and enter all the required details and click on ‘Save’.

Appointment Status

If the patient has arrived at your clinic or cancelled the appointment, you can change the patient appointment status to the appropriate one by selecting from the drop down list as shown below.

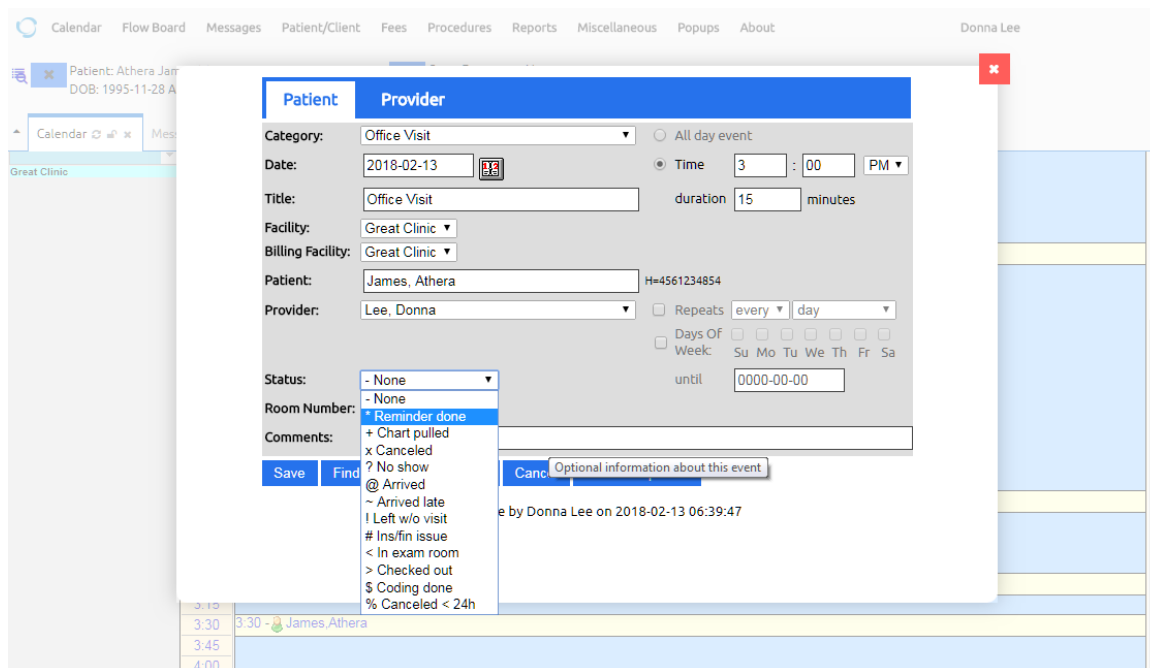

Figure14: Changing Appointment Status.

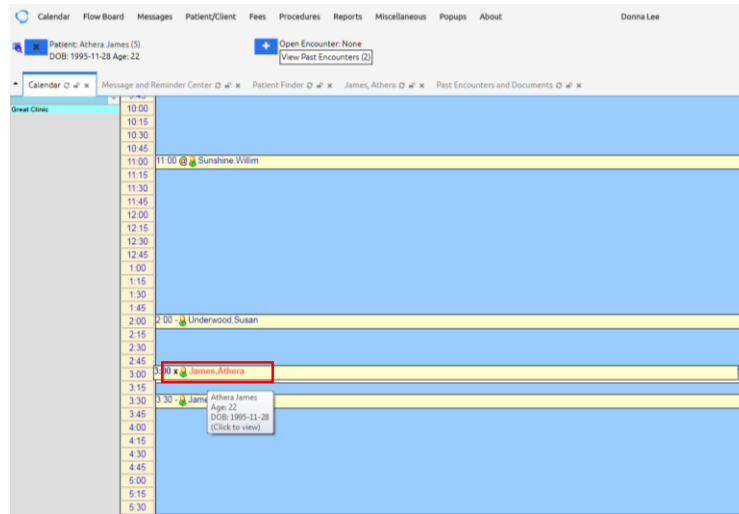

Figure15: Appointment Status.

You can also type a note into the 'Comments' line if more information is needed. Click 'Save' to update the status of the appointment. You can see that the symbol next to the appointment time has changed to indicate its new status. Any comments are now also visible when you mouse over the patient's name on the appointment calendar.

Patient Profile

Click on patient name in either patient tab or select it from appointment list, both the option will lead to Patient information page.

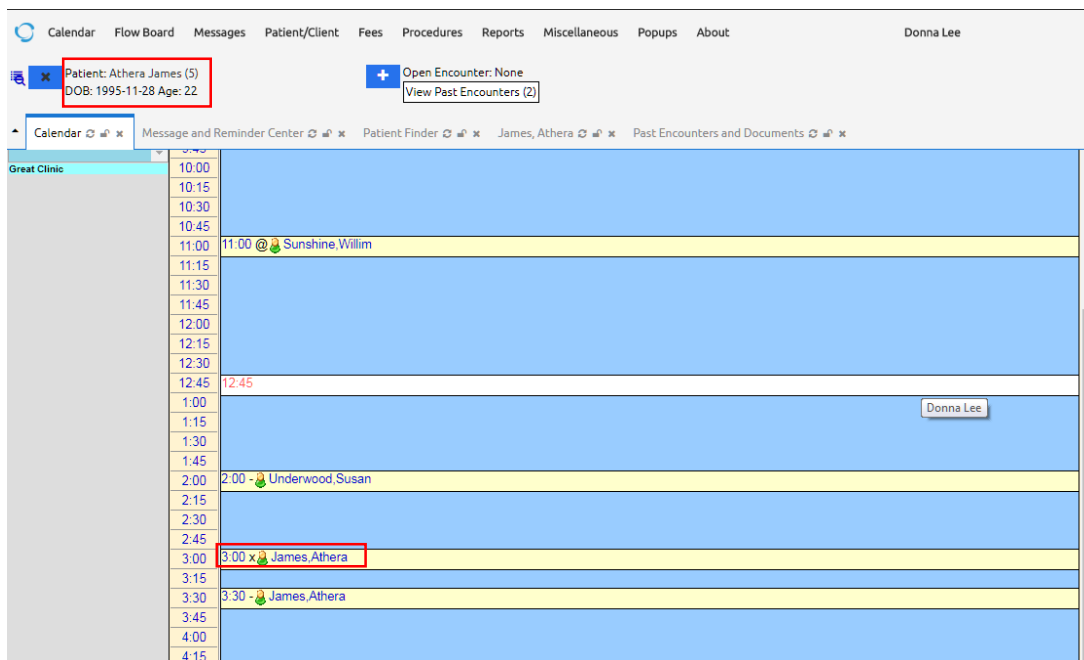

Figure16: Selecting patient

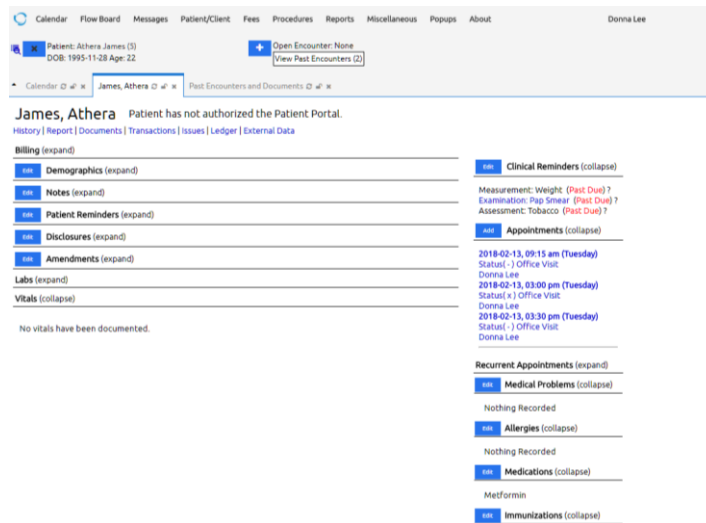

Figure17: patient Information

Patient Demographics

To enter detailed demographic information of a patient, Select the patient and click on 'Edit' next to the Demographics section. This will bring up a series of tabs containing inputs for the various types of patient data.

Click on the tab for the section you would like to work with and fill in the desired information in the fields.

Who – The fields under this tab allows physician to collect patient related information like: Name, DOB, Sex, and Marital Status etc.

Contact – The fields under this tab allows physician to collect patient contact information's like:

Address, Phone Numbers, Email ID, Mother/Guardian name.

Choices – The fields under this tab allows physician to enter the provider details, message details and portal details for that particular patient.

Employer – The fields under this tab allows physician to collect employer details of that patient.

Stats– The fields under this tab allow physician to collect patient statistics like: Language, Race, Income, Family size etc.

Misc –Allows physician to collect other information related to the patient.

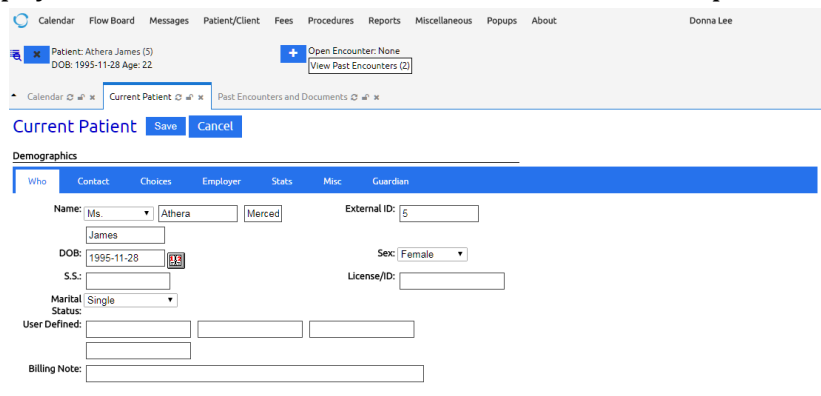

Figure18: patient Demographics

Patient Insurance

To enter Insurance information for a patient click on 'Edit' next to the Insurance section. This will bring up a series of tabs containing inputs for the various types of insurances.

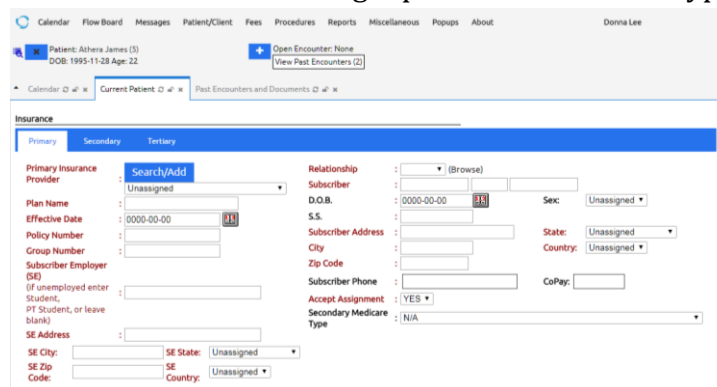

Figure19: patient Demographics

Click on the tab for the section you would like to work with and fill in the desired information in the fields. Note that fields labeled in red are required in order for billing to work properly.

You can add a new insurance company or search for an already existing insurance company by clicking on 'Search/Add' button next to the Insurance Provider.

Click on save once the required insurance information is provided. This takes you back to the Patient Summary page. All the patient details entered will be displayed in the Patient Summary page as shown in the screen below.

Medical Problems

Patient medical problems are added to the patient information by clicking "edit" button near Medical Problem.

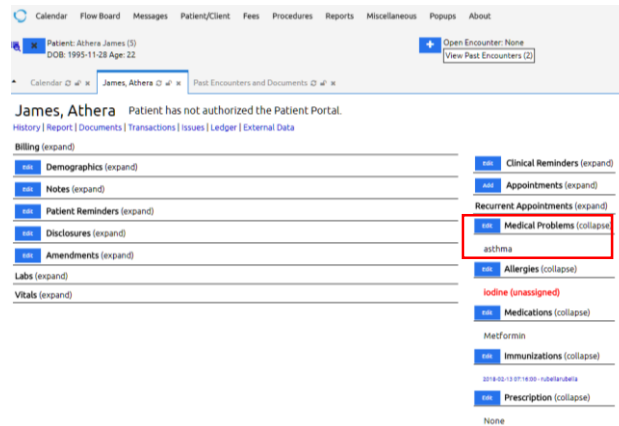

Figure20: Medical Problem

Medical Problems tab opens, in that Click Add to add medical problems.

Figure23: medical problems list

Flow Board

Patient Flow Board allows you to see where patients are and how long they have been waiting. Patient Flow Board and Calendar work together and changes made in one program can be seen in the other.

PID	Patient	Encounter	Exam Room #	Appt Time	Arrive Time	Status	Current Status Time	Visit Type	Total Time	Check Out Time	Updated By
2	Underwood, Susan Ardmore			12:15		- None		Office Visit			physician
4	James, Athera Mercedes	15		15:00	09:15	@ Arrived		Office Visit			physician
1	Belford, Phil			16:45		- None		Office Visit			physician

Figure24: Patient Flow Board

Patient Flow Board shows the patient status with colors based on the appointment status code. The 'Current Status Time' is reset and restarted with each status change, but the total time keeps running.

(Timings are based upon arrival time not appointment time). These timings and status

changes are stored so they can be retrieved on the Patient Flow Board report.

You can change the status of patient in the Patient Flow Board by just clicking on the 'Status' for a particular patient. A new window as shown in the screen below will be displayed.

Change the 'Status Type' for the patient and also enter the Room number (if required) and click on 'Save'. The changes made will be updated.

Messages and Reminders

Message and reminder center allows to send message to the particular recipient or to the group of people. Reminders are used to set reminder for patients, providers on particular date.

Creating new Message

Click "Add new" in the message tab to send a new message. Add new message dialog box appears, in that select type, patient name, Status, Receiver names from list box and include the message, after including all the details, click "send message". Type includes options such as Unassigned, Chart Note, Insurance, New Document, pharmacy, Prior Auth, Referral, Test Scheduling, Bill/Collect, other, Lab Result, New Orders, Patient Reminder, Image Result. Status includes options such as New, Done, Forwarded, Read.

Patient/Client

Patient

Click patient from Patient/Client to view the list of patients in the EMR. The records are search by using Full Name, Home Phone, SSN, Date of Birth or External ID.

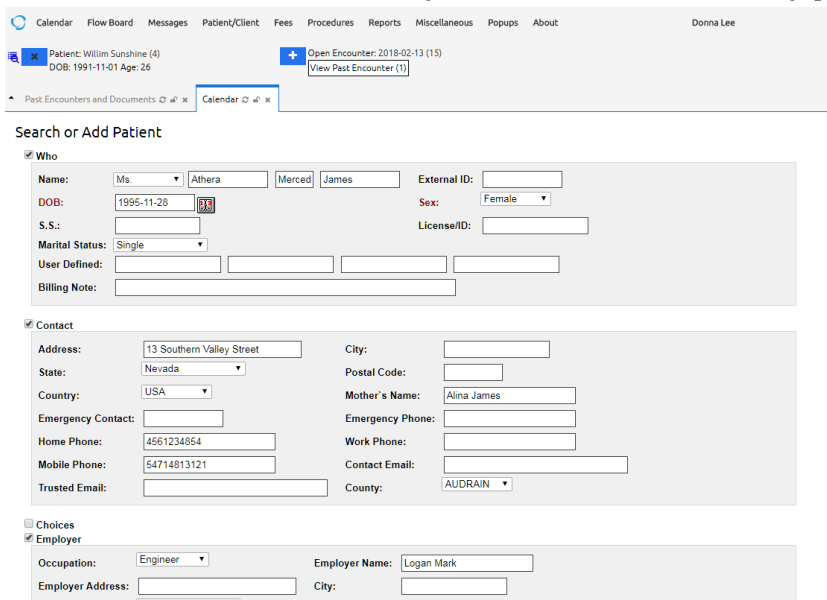

The screenshot shows the 'Patient/Client' section of the EMR interface. At the top, there's a navigation bar with tabs: Calendar, Flow Board, Messages, Patient/Client (selected), Fees, Procedures, Reports, Miscellaneous, Popups, and About. The user name 'Donna Lee' is in the top right. Below the navigation bar, there's a 'Patient: None' status and a 'Patient Finder' search bar. A table lists patient records with columns: Full Name, Home Phone, SSN, Date of Birth, and External ID. The table contains four entries. Below the table, there's a 'Show 10 entries' dropdown and a 'Search all columns:' input field. At the bottom, there's a 'Previous' button, a page number '1', and a 'Next' button.

Full Name	Home Phone	SSN	Date of Birth	External ID
Belford, Phil	333-444-2222	333222333	1972-02-09	1
James, Athera Mercedes	4561234854		1995-11-28	4
Moore, Wanda			2007-02-18	3
Underwood, Susan Ardmore	4443332222	112-33-5544	1967-02-08	2

Figure 29: Patient list

New/Search

New/Search was used to add new patient to the healthcare. Patient Name, Date of Birth and Sex are mandatory fields to create a new patient. If you have an existing chart for this patient, you may enter the chart number under 'External ID', If not the system will take care of this. Enter all the required information and click on 'Create New Patient'. This will display a pop up box that shows if there is an existing patient or not after you create a new patient. Clicking on 'Confirm Create New Patient' will takes you to the Patient Summary page. Refer Figure 8.

The screenshot shows the 'Search or Add Patient' form. It has two main sections: 'Who' and 'Contact'. The 'Who' section includes fields for Name (Ms, Athera, Marced, James), External ID, DOB (1995-11-28), Sex (Female), S.S., License/ID, Marital Status (Single), User Defined, and Billing Note. The 'Contact' section includes fields for Address (13 Southern Valley Street), City, State (Nevada), Postal Code, Country (USA), Mother's Name (Alina James), Emergency Contact, Emergency Phone, Home Phone (4561234854), Work Phone, Mobile Phone (5471481312), Contact Email, Trusted Email, and County (AUDRAIN). There are also checkboxes for 'Choices' and 'Employer', and fields for Occupation (Engineer), Employer Name (Logan Mark), and Employer Address.

Visit Forms

Care Plan

Care plan is used to create Patient care plan which includes details such as Code, Description, Date and Type. Type include options such as appointment, Instructions, Plan of Care, Procedure and test /order.

The screenshot shows a medical software interface with a top navigation bar containing links like Calendar, Flow Board, Messages, Patient/Client, Fees, Procedures, Reports, Miscellaneous, Popups, and About. The user's name, Donna Lee, is in the top right. Below the navigation bar, a patient profile for Phil Belford (DOB: 1972-02-09, Age: 46) is displayed. A button for 'Open Encounter: 2018-02-13 (16)' is visible, along with a 'View Past Encounters (2)' link. A blue envelope icon with '(1)' indicates a message. The main content area is titled 'Form: Care Plan Form' and has tabs for 'Encounter Summary', 'Administrative', and 'Clinical'. The 'Clinical' tab is active. The form fields include: 'Code' with the value '12' and a suggestion 'Fever'; 'Description' with the value 'Blood Test'; 'Date' with the value '2018-02-13'; and 'Type' with a dropdown menu showing 'Test/Order' and two status icons (green plus and red X). A 'Save' button is at the bottom.

Figure 36: Care Plan

Clinical Instructions

To add clinical instructions to the patient, go to **Patient/Client -> Visit Forms-> Clinical Instruction**.

The screenshot shows the same medical software interface as Figure 36, but with the 'Form: Clinical Instructions Form' open. The 'Clinical' tab is active. The form has a large text area for 'Instructions' containing the text 'Complete Rest for a week.' and a 'Save' button at the bottom right.

Figure 37: Clinical Instruction

Eye Exam

It includes details such as HPI, PMSFH, Mental Status, Vision, Tension, Pupils. It also includes External Exam, Anterior Segment, Retina, Neuro, Impression/Plan.

The screenshot shows the 'Eye Exam' form within a medical software application. The top navigation bar includes 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Procedures', 'Reports', 'Miscellaneous', 'Popups', and 'About'. The patient information at the top indicates 'Patient: Phil Belford (1)' with 'DOB: 1972-02-09 Age: 46'. The 'Visit Date' is '2018-02-13' and the 'Provider' is 'Donna Lee'. The 'Reason/Plan' field is empty. The 'HPI' (History of Present Illness) section is highlighted, showing 'Chief Complaint 1: Eyes redness'. Below this, there are fields for 'HPI' and 'Chronic Problems', both of which are currently empty. The 'Active Chart' button is visible in the top right corner.

Figure 38: Eye exam

Functional and Cognitive Status Form

It is used to enter Functional and cognitive status details. To add these details, go to **Patient/Client -> Visit Forms -> Functional and Cognitive status Form.**

The screenshot displays the 'Functional and Cognitive Status Form'. The top navigation bar is the same as in Figure 38. The patient information remains 'Patient: Phil Belford (1)' with 'DOB: 1972-02-09 Age: 46'. The 'Visit Date' is '2018-02-13' and the 'Provider' is 'Donna Lee'. The 'Form: Functional and Cognitive Status Form' is selected. The form includes fields for 'Code', 'Description', and 'Date'. The 'Description' field contains the text 'Test Status'. The 'Date' field is set to '2018-02-13'. There are also 'Active' checkboxes with green and red status indicators. A 'Save' button is located at the bottom of the form.

Figure 39: Functional and cognitive Status Form

Misc Billing Option HCFA

To open Misc Billing Option, Go to **Patient/Client -> Visit Forms -> Misc Billing Option HCFA.**

It includes details such as details such as employment related, Prior Authorization No, Replacement Claims, Provider details, Lab Details etc.

The screenshot shows the 'Misc Billing Options for HCFA-1500' form. At the top, there's a navigation bar with tabs: Calendar, Flow Board, Messages, Patient/Client, Fees, Procedures, Reports, Miscellaneous, Popups, and About. The user is logged in as Donna Lee. Below the navigation bar, there's a patient summary for Phil Belford (DOB: 1972-02-09, Age: 46). The form is titled 'Misc Billing Options for HCFA-1500' and has three tabs: Encounter Summary (selected), Administrative, and Clinical. The form contains various fields for billing information, including checkboxes for employment-related accidents, auto accidents, and other accidents. It also includes date fields for hospitalization and dates unable to work, as well as fields for provider, provider qualifier, hospitalization dates, amount charges, medical resubmission codes, and prior authorization numbers. At the bottom, there are 'Save' and 'Don't Save Changes' buttons.

Figure 40: Misc Billing Option.

Observation

To add the details of patient observations, go to **Patient/Client -> Visit Forms -> Observations**.

The screenshot shows the 'Form: Observation Form' in the software interface. The navigation bar is the same as in Figure 40. The patient summary is for Phil Belford. The form is titled 'Form: Observation Form' and has three tabs: Encounter Summary (selected), Administrative, and Clinical. The form contains fields for 'Code' (1254, chronic Renal), 'Comments' (Middle Level), and 'Date' (2018-02-07). There are also status icons (green, red, and a cross) and a 'Save' button at the bottom.

Figure 41: Observation

Procedure Order

To add procedures to patients, go to **Patient/Client -> Visit Forms -> Procedure Order**, include details such as provider name, Order Date, Priority, Status, History Order, and Procedure.

Batch Payment

Payment can also be done by Selecting **Payment-> batch payment**. Batch payment is used bundle multiple bills into one payment transaction. You can then export the file and upload it into your online banking or other payment service. Your bank processes the file and pays the bills in the batch. To make a new payment,

New Payment

Select **new payment** tab under batch payment.

The screenshot shows the 'Batch Payment Entry' form within a medical software interface. The top navigation bar includes 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Procedures', 'Reports', 'Popups', and 'About'. The patient information section displays 'Patient: Susan Underwood (2)' with 'DOB: 1967-02-08 Age: 51'. There is a button for 'Open Encounter: 2018-02-08 (15)' and a link for 'View Past Encounters (3)'. The 'Payments' section has tabs for 'New Payment', 'Search Payment', and 'ERA Posting'. The 'Batch Payment Entry' form contains the following fields: 'Date' (2018-02-08), 'Post To Date' (2018-02-08), 'Payment Method' (Cash), 'Check Number' (empty), 'Payment Amount' (50.00), 'Paying Entity' (Patient), 'Payment Category' (Patient Payment), 'Payment From' (Underwood Susan Ardmore), 'Deposit Date' (2018-02-08), 'Description' (Underwood Susan Ardmore), and 'UNDISTRIBUTED' (50.00). At the bottom are buttons for 'Save Changes', 'Cancel Changes', and 'Allocate'.

Figure 51: New Payment

Search Payment

It is used to search payment details by using either of the following such as deposit Date, payment amount, payment type, date, payment category etc.

The screenshot shows the 'Payment List' search interface. The top navigation bar is the same as in Figure 51. The patient information is also the same. The 'Payments' section has tabs for 'New Payment', 'Search Payment', and 'ERA Posting'. The 'Payment List' form includes search criteria: 'Deposit Date' (From: 2018-02-08, To: empty), 'Payment Method' (Cash), 'Check Number' (empty), 'Payment Amount' (50), 'Paying Entity' (Patient), 'Payment Category' (Patient Payment), 'Pay Status' (empty), 'Payment From' (empty), and 'Sort Result by' (empty). A 'Search' button is at the bottom right. Below the form is a table with the following data:

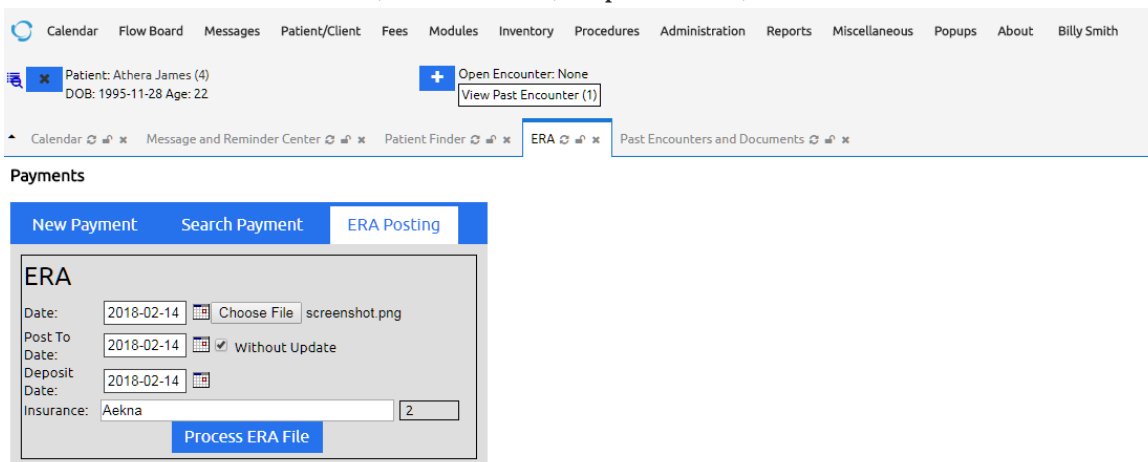

ID	Date	Paying Entity	Payer	Ins Code	Payment Method	Check Number	Pay Status	Payment	Undistributed
8	2018-02-08	Patient	Underwood Susan Ardmore		Cash		Fully Paid	50.00	0.00

Figure 52: Search payment

ERA posting

An electronic remittance advice (**ERA**) is an electronic data interchange (EDI) version of a medical insurance **payment** explanation. It provides details about providers' claims **payment**, and if the claims are denied, it would then contain the required explanations.

It include Details such as Date, Post to date, Deposit Date, insurance etc.

The screenshot shows the OpenEMR interface for ERA posting. At the top, there's a navigation bar with various menu items like Calendar, Flow Board, Messages, Patient/Client, Fees, Modules, Inventory, Procedures, Administration, Reports, Miscellaneous, Popups, About, and Billy Smith. Below this, a patient selection area shows 'Patient: Athera James (4)' with DOB: 1995-11-28 and Age: 22. There are buttons for 'Open Encounter: None' and 'View Past Encounter (1)'. A breadcrumb trail at the bottom of the patient area includes 'Calendar', 'Message and Reminder Center', 'Patient Finder', 'ERA', and 'Past Encounters and Documents'. The main section is titled 'Payments' and has three tabs: 'New Payment', 'Search Payment', and 'ERA Posting'. The 'ERA Posting' tab is active, showing a form with fields for 'Date' (2018-02-14), 'Post To Date' (2018-02-14), 'Deposit Date' (2018-02-14), and 'Insurance' (Aekna). There are also buttons for 'Choose File' (with a file named 'screenshot.png') and 'Without Update'. A 'Process ERA File' button is at the bottom of the form.

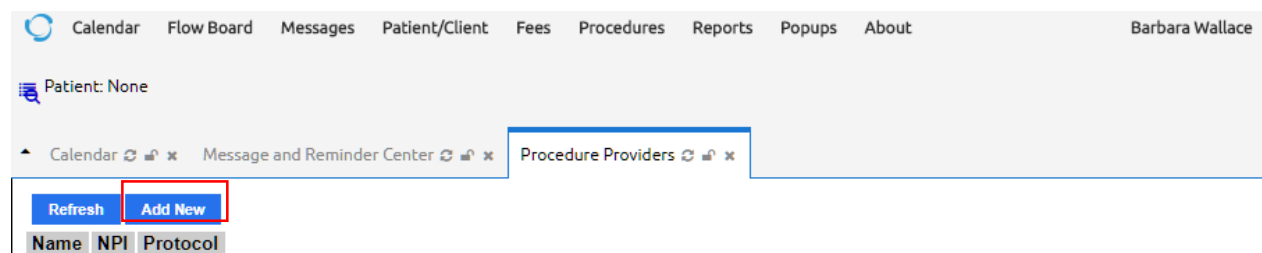

Figure 53: ERA posting

Procedure Provider

OpenEMR can work with collections of diagnostic tests using a functionality called "Procedures". Procedures are not just for ordering lab tests and recording their results; they apply to any procedure that performs some act and records results for that act. OpenEMR's procedure orders meet the Meaningful Use requirement to store test results in the EMR as structured data.

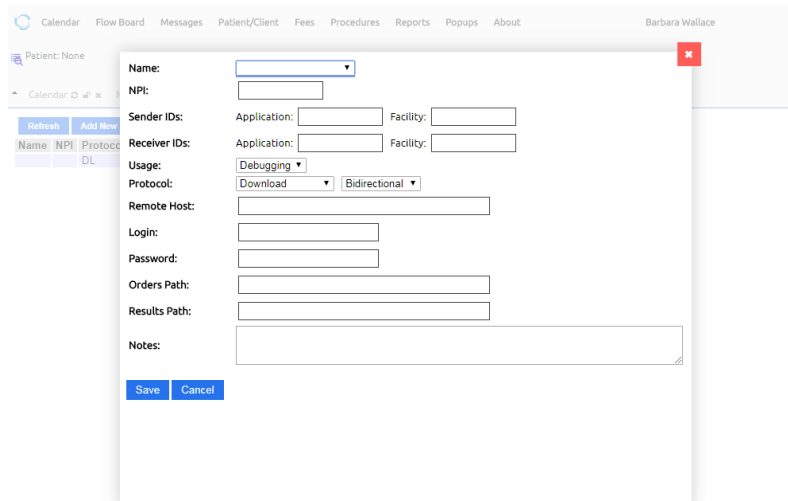

In order to create procedures,

1. Select **Procedures-> Providers**
2. Click **Add New** button

The screenshot shows the OpenEMR interface for adding new procedure providers. The navigation bar at the top includes 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Procedures', 'Reports', 'Popups', and 'About', with the user 'Barbara Wallace' logged in. The patient selection area shows 'Patient: None'. The breadcrumb trail at the bottom of the patient area includes 'Calendar', 'Message and Reminder Center', and 'Procedure Providers'. The main section has two buttons: 'Refresh' and 'Add New', with 'Add New' highlighted by a red box. Below the buttons is a table with columns 'Name', 'NPI', and 'Protocol'.

Figure 54: Adding new Procedure.

The dialog box contains the following fields:

Figure 58: Types of Orders and Results

Electronic Reports

This can be used to look up studies for a particular day or period of time. It is an excellent tool to prevent a study from being forgotten. In a busy practice it is not unusual to overlook an ordered study; only to discover later, *to the horror of the practice*, that in addition to the abnormal result; that the timely processing of that result could have saved the patient from a delay in diagnosis and treatment.

Lab Documents

To generate list of lab documents, go to **Procedure -> Lab Documents**. Select from Date and To date to generate the lab documents between those dates.

Chart Activity

To find Chart Location for particular patient, select **Reports -> Visits-> Chart Activity**. Chart location was found with the help of patient ID.

The screenshot shows a medical software interface with a top navigation bar containing links like Calendar, Flow Board, Messages, Patient/Client, Fees, Modules, Inventory, Procedures, Administration, Reports, Miscellaneous, Popups, About, and Administrator. Below the navigation bar, a patient profile is displayed for 'Patient: Test Test1 (1)' with 'DOB: 2010-02-18 Age: 7'. There are buttons for 'Open Encounter: None' and 'View Past Encounter (1)'. A breadcrumb trail shows the path: 'Calendar > Message and Reminder Center > Test1, Test > Past Encounters and Documents > Report - Chart Location Activity'. The main title of the report is 'Report - Chart Location Activity for Barnes, Anna Samantha (4)'. Below this, there is a form with a 'Patient ID' field containing the number '4', and 'Submit' and 'Print' buttons. At the bottom, there is a table header with columns 'Time' and 'Destination'.

Figure 79: Chart Activity

Services

To view all the services provided by healthcare, select **Reports -> Visits-> Services**. Select the type and click submit to view the services provided under that category.

The screenshot shows the 'Report - Services by Category' form. It has a dropdown menu set to 'All' and a checkbox for 'include Uncategorized'. There are 'Submit' and 'Print' buttons. Below the form is a table with the following data:

Category	Type	Code	Mod	Units	Description	Standard
Uncategorized	CPT4	2345	fever		high fever	200.00
	CVX	1	0		diphtheria, tetanus toxoids and pertussis vaccine	
	CVX	10	0		poliovirus vaccine, inactivated	
	CVX	100	0		pneumococcal conjugate vaccine, 7 valent	
	CVX	101	0		typhoid Vi capsular polysaccharide vaccine

Figure 92: Unique seen Patient

Blank Form Demographics

It is used to generate a blank Demographics Form for printout. To generate blank Demographics Form, Goto **Report-> Blank Forms -> Demographics.**

The screenshot shows the 'Registration Form' in a web application. The top navigation bar includes 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Procedures', 'Reports', 'Popups', and 'About'. The user 'Barbara Wallace' is logged in. The form is titled 'Registration Form' and is for 'Great Clinic'. It is divided into three main sections: 'Who', 'Contact', and 'Choices'. The 'Who' section includes fields for Name, External ID, DOB, Sex, S.S., License ID, Marital Status, User Defined, and Billing Note. The 'Contact' section includes fields for Address, City, State, Postal Code, Country, Mother's Name, Emergency Contact, Emergency Phone, Home Phone, Work Phone, Mobile Phone, Contact Email, Trusted Email, and County. The 'Choices' section includes fields for Provider, Referring Provider, and Pharmacy.

Figure 93: Demographics

Super Bill/Fee Sheet

Fee Sheet was generated by selecting **Reports -> Blank Forms -> Super Bill / Fee Sheet**.

The screenshot shows the 'Superbill/Fee Sheet' form. It has a top navigation bar similar to the previous form. The form is divided into two main sections: 'New Patient' and 'Established Patient'. The 'New Patient' section includes fields for Patient, DOB, Reason, Insurance, Prior Visit, and Today's Charges. The 'Established Patient' section includes fields for Patient, DOB, Reason, Insurance, Prior Visit, and Today's Charges. There is also a 'Notes' section on the right side of the form.

Figure 94: Fee Sheet

Referrals

To generate Referrals form goto **Reports ->Blank forms ->Referrals**. The Hard copy of Referrals are taken by justing print option.

The image shows a 'REFERRAL FORM' within a software application. The form is divided into several sections: 'Patient Information' (Name, Age, Gender, Address, Phone), 'Insurance Information' (Insurance, Referral Reason), and 'Referral Information' (Referral to). The form is displayed in a window with a print dialog on the left. The print dialog shows 'Total 2 sheets of paper' and 'Print' and 'Cancel' buttons. The form is titled 'REFERRAL FORM' and contains fields for Patient Name, Age, Gender, Address, Phone, and Insurance. It also has sections for 'Referral Reason' and 'Referral to'.

Figure 95: Referrals

Miscellaneous Patient Education

It is the menu which is used to educate the patient. It include the search criteria and keyword. To use Patient education, select **Miscellaneous-> Patient Education**.

The image shows the 'Web Search - Patient Education Materials' window in the OpenEMR interface. The window has a search bar with 'fever' entered and a 'Submit' button. The interface includes a top menu bar with 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Modules', 'Inventory', 'Procedures', 'Administration', 'Reports', and 'Miscellaneous'. A patient summary for 'Patient: Test Patient (2)' is visible at the top.

Figure 96: Patient Education

Addr Book

OpenEMR also contains a built-in address book for storing useful contact information for your staff as well as other doctors, clinics, etc. that your office may contact on a regular basis. Select **Miscellaneous->Addr Book**. Click **Add New**.

Figure 97: Adding new Organization

After entering all the details, click save.

Organization	Name	Local	Type	Specialty	Phone	Mobile	Fax	Email	Street	City	State	Postal

Add Top Level

Figure 99: Order Catalog

Chart Tracker

It is used to track the chart of the patient with patient ID. To track chart, select **Miscellaneous -> Chart Tracker**.

The screenshot shows the 'Chart Tracker' window within a medical software application. The top navigation bar includes 'Calendar', 'Flow Board', 'Messages', 'Patient/Client', 'Fees', 'Modules', 'Inventory', 'Procedures', 'Administration', 'Reports', and 'Miscellaneous'. Below this, there's a sub-navigation bar with 'Popups' and 'About'. The main content area displays patient information for 'Patient: Test Patient (2)' with DOB '2008-02-13' and Age '10'. It also shows 'Open Encounter: None' and a button to 'View Past Encounters (2)'. A 'Check In To' dropdown menu is set to 'File Room', and there's a 'Save' button. A 'New Patient ID' field with a 'Look Up' button is also present. The bottom of the window shows a list of tabs: 'Calendar', 'Message and Reminder Center', 'Patient, Test', 'Direct Message Log', and 'Chart Tracker'.

Figure 100: Chart Tracker

Ofc Notes

It is used to add notes. To add new notes, select **Miscellaneous-> ofc Notes**. To view all notes, click view all. It also include options such as active and inactive notes.

The screenshot shows the 'Office Notes' window within a medical software application. The top navigation bar is the same as in Figure 100. The sub-navigation bar shows 'Popups' and 'About'. The main content area displays a large text input field for adding a new note. Below the input field, there's a 'View' section with options: '[All]', '[Only Active]', and '[Only Inactive]'. There's also a '[Change Activity]' button. A list of notes is shown, including '2018-02-15 (admin) Test Note' and '2018-02-15 (admin)'. The bottom of the window shows a list of tabs: 'Calendar', 'Message and Reminder Center', 'Patient, Test', 'Direct Message Log', and 'Office Notes'.
